PREFACE

This body of work has taken 40 years of record searching in courthouses, interviews with living relatives, cemetery hunting from all over Missouri, microfilm reading of census records, deeds and most important of all...libraries from the local town library to the National Archives.

I have had help from many researchers sharing their research over the years with the intent that one-day, I would be able to compile and share what was found with others seeking their family histories. It is with great pleasure I am able to share with Donna (MOORE) Peckam her accumulative family history research in this volume of work.

Please make copies of this file for future preservation. I am the only one who knows how to create a book of this caliber.

LAYOUT

There are several sections in this book.

- [1] 6 pedigree pages of Donna's direct line ancestors comprising of 8 generations.
- [2] Beginning with Donna followed by each progenitor until completed.
- [3] Each direct line ancestor has basic information followed by notes comprised of very important source documentation.
- [4] Each direct line progenitor has spousal information including children and their spouses. If further information is wanted concerning allied families, please contact the author.
- [5] The end of the book has the author's pedigree showing his relationship to the common ancestors. Also, there is a short biography of the author explaining his interest in family history research.

I hope you will share this book with others in your family and it will become a family treasure.

Any questions you may have concerning information in this book can be asked of the author either at his home address: Floyd Pratt, 4000 20th Street West Apt 113, Bradenton, Florida 34205 or by phone 941.209.1706 or by email floydpratt59@yahoo.com or floydpratt59@gmail.com

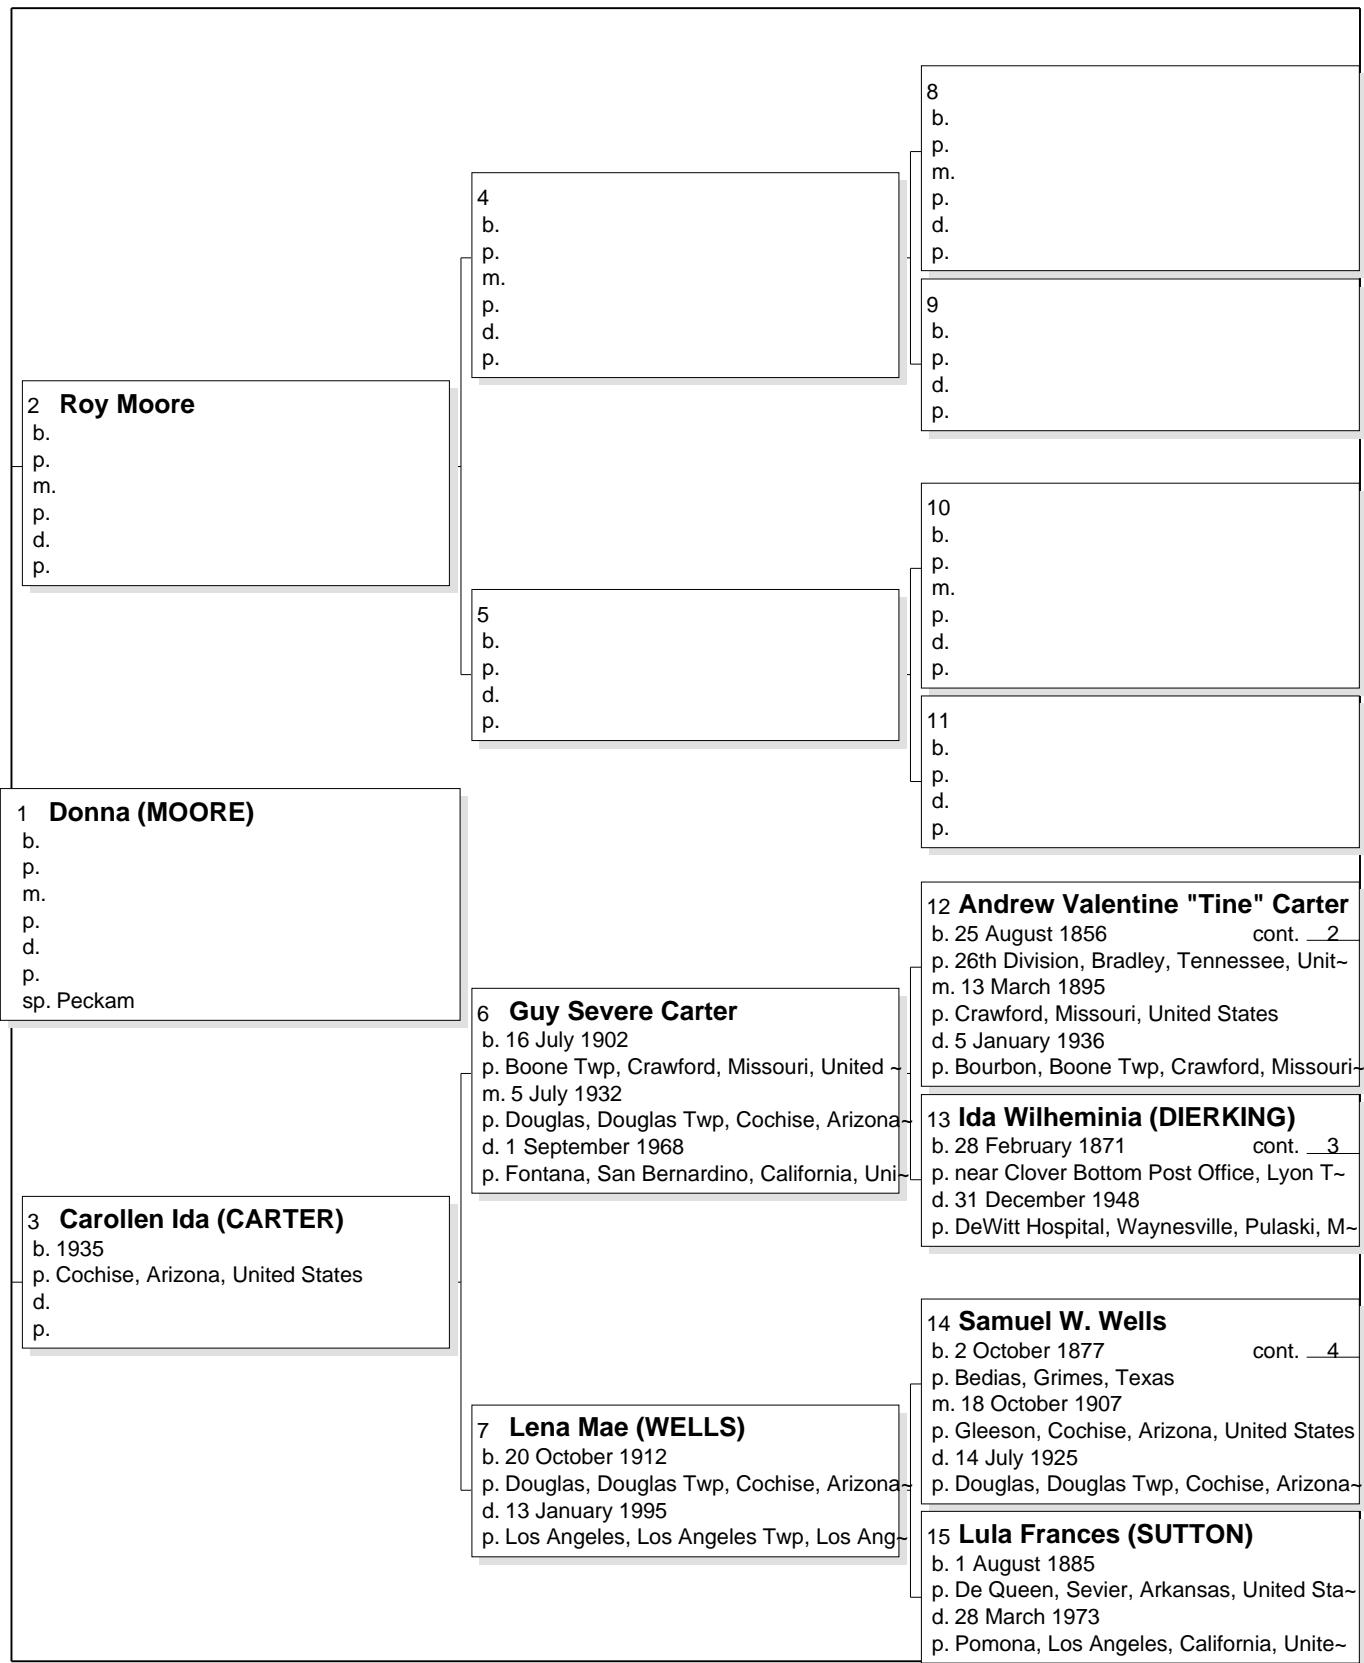

It is and always has been my desire to share what I have found with others so they may use our research as a springboard to launch their family histories. Only through knowing our ancestors...can we know ourselves.

*Research Note

The Identity of Marion F. Holmes in the 1930 census is ambiguous. He is listed on the next page as family #26, which appears not to be part of Harry's house, which is family #56. Also, neither Harry nor Lena could be his parents since they are around the same age. Marion says he was born in Colorado and his parents were born in Kansas. Therefore, the transcribers are in error listing him as part of Harry's family.

Find A Grave Errors

As usual, those who post information on Findagrave fail to do serious research on their postings. They either take the information from an unreliable death certificate or from an equally unreliable headstone. The only reason I bother to list the FAG postings in my C2G profiles is to validate the burial location of the deceased. All other information unless researched by a qualified family history researcher...supported with documentation and source references is questionable and should not be taken as accurate. The above FAG posting is one of those with errors and should not be considered factual. Floyd Thomas Pratt F.H.C., M.A.G.I.

Which cemetery is he buried? Where's the photo?

Read "Why I can no longer support www.findagrave.com" by Floyd Thomas Pratt F.H.C., M.A.G.I. After contributing over 1000 grave comments, stories and articles about various ancestors, Mr. Pratt removed his support for the Find A Grave website and details his reasons. Due to unfair practices conducted by the FAG administration, this loss of ancestral data has been a serious blow to family history researchers. However, if you are interested in a particular gravesite, contact Mr. Pratt at floydpratt59@yahoo.com...with over 42,000 ancestors in his database, most likely he knows something about your ancestor.

Cradle to Grave (C2G) Profile for Valentine S. Carter by Floyd Thomas Pratt F.H.C., M.A.G.I. 2012

In harmony with the first law of genealogy or family history research, i.e., documentation, I submit my famous Cradle to Grave (C2G) Profile on this subject including all known documentation presented for the serious researcher. This has been done to help the serious researcher continue in their thirst for family history knowledge without a duplication of effort. All I ask is that you acknowledge my contribution to your family history research. My gift to you...Floyd Thomas Pratt F.H.C., M.A.G.I.

1819 Creation of McMinn and Monroe County, Tennessee

McMinn and Monroe County, Tennessee were both created on 13 November 1819, from Cherokee Native lands. Swindled by dishonest legislators and treaty makers, using fraudulent and worthless treaties, the Cherokee peoples were pushed from their homes in eastern Tennessee into northern Georgia. During the 18th century, towns and villages of the Overhill Cherokee were scattered along the Little Tennessee River and Tellico River throughout Monroe County. These included Chota (Cherokee Capital), Tanasi (the name source of "Tennessee") and Great Tellico, which at various times were Cherokee principal towns, as well as Citico, Toqua, Tomottee, Mialoquo, Chilhowee, and Tallassee. Monroe County was established in 1819 after the signing of the Calhoun Treaty, in which the Cherokee relinquished claims to lands stretching from the Little Tennessee River south to the Hiwassee River on threat of war. The county was named for President James Monroe. Some of the state's first gold mines were discovered in 1826 located in Monroe County encouraged by the whites, forcing the government to seize land by any means. Placer mining took place on Coker Creek (near Tellico Plains) in the early 1830s.

Research Note

Read the paper, "**The Parentage of the Three Reverends...and the Lady**" by this author. Mr. Pratt establishes a relationship between Valentine and his brother James Allen Carter with the Allen Sr. and Elizabeth (TRIMM) Carter family. This relationship is based on census, names and associations, void of hard documented evidence. In this report, Rev. Marcus E. Carter is a cousin, son of Allen Sr.'s brother; Caleb Jr. and Phoebe (WILLIAMS) Carter. We know Valentine's brother; Rev. James Allen Carter after leaving Bradley County, Tennessee stayed in Crawford County, Missouri for a while near his brother, and then moved to Texas County, Missouri. Maybe finding a death notice in Jefferson County, Missouri, where James died might reveal his parentage and thereby reveal Valentine's parents giving us hard evidence as to their parentage. A serious family researcher of Valentine's needs to research each and every resource in the Crawford County, Missouri Courthouse and check each and every local newspaper, i.e., Steelville, Sullivan, Bourbon and others to find information concerning Valentine Carter. We checked the Methodist Episcopal Church headquarters, since Rev. Valentine was a circuit preacher for over 30 years, to see if he had filled out an application-listing parents, but they stated his ministry had commenced long before they started to keep records. If some legal document does not reveal his parentage and connect the family to more generations of Carters in Bradley County, Tennessee, then a road trip is necessary to Monroe, Bradley, McMinn and Roane Counties of Tennessee to begin the quest for verifiable hard evidence of his parentage. The land that is now Missouri was acquired from France as part of the Louisiana Purchase in 1803 and became known as the Missouri Territory on June 4, 1812. The southeastern portion of the territory was admitted into the union as the State of Missouri the 24th state on August 10, 1821. As other states

Henry and Nancy (**CARTER**) Pratt family moved from Greene, Tennessee to Monroe County, Tennessee. Gold was discovered in Monroe County, the first gold discovery in American history and this transformed Monroe County into a busy location for fortune seekers. Henry Pratt family moved from Greene, Tennessee, United States to Monroe, Tennessee, United States about the same time Nancy's parents and siblings moved to Monroe County around the time of the gold discovery in Monroe County in 1826. After selling his land to Abraham Weems on 25 April 1825, Nancy's father; Jesse Carter and family moved to Monroe County. This put an extreme hardship on the Cherokees and Gold was one of the reasons the white settlers wanted to remove them from their land. When Crawford County's boundaries extended to include most of Phelps and part of Dent counties, the county seat was located at the mouth of the Little Piney River. The current County Seat of Steelville was laid out in 1836

James Allen Carter was born in Monroe, Tennessee, United States on 1830.

Research Note

Even though it appears this boy listed in the 1840 census with Valentine is his and Maleta's son, he is not, he is his brother James. Valentine being born in 1820 would not have been ready for marriage until 1835 and more likely 1837. Therefore, these two boys living with them in the 1840 census are not their sons.

1835-1837 Marriage of Valentine S. Carter and Maleta "Letha" (EPPERSON)

I believe Valentine Carter and Maleta (EPPERSON) were married circa 1837-1838 and their son; Allen was their first born. However, I feel the 1840 census has deceived many researchers over the years believing Valentine and

Ancestors of Donna (MOORE) Peckam

Maleta married 1832-1835 because in the 1840 census showing two boys aged 5-9 year old.

Taking in account Valentine was younger than Maleta and was born in 1820, he would not have been married at age 12 to 15 as the boy's age suggests. I believe these two boys were brothers of Valentine's and one of them was...James Allen Carter.

Since no database has revealed the marriage date and location of this marriage then it is evident this would be a big key to solving Valentine's parentage.

Maleta's father; Jesse Epperson was in the 1830 McMinn County, Tennessee census and I checked the other "Carters" in McMinn County but no one appears to be the link to Valentine.

Checking the church records of the Methodist Episcopal Church South, if they exist, in the surrounding counties of McMinn might hold that marriage record.

However, Valentine's parents were living in Monroe County, I suspect Valentine courted Maleta, who probably also lived in Monroe County at the time of the marriage and married her in that dark period between the formation of Monroe County in 1819 and 1838 when they officially started keeping marriage records.

Finding out when Jesse Epperson left McMinn County and when he bought land if he ever did in Monroe County, and when he bought land in Bradley County would give us a snapshot of his movements during that blackout time period.

1935-1939 Family Move

Valentine and Maleta married and moved to Murray County, Georgia. Son, Allen Carter was born in Murray County, Georgia on 24 October 1839.

After Allen's birth, Valentine is back in Bradley County living next door to his father-in-law; Jesse Epperson and family. In 1828, gold was discovered in northwestern Georgia then called Cherokee County.

In December 1832, the Georgia General Assembly designated the extreme northwestern corner of the state of Georgia as Murray County.

Formerly part of Cherokee County, the area was named for a Georgia statesman from Lincoln County, Thomas W. Murray, a former speaker of the Georgia House.

The area was in the heart of the Cherokee Nation at the time the boundary lines were drawn through their territory. Not waiting until after the Cherokees were removed in 1838-39, the white settlers entered the county in large numbers as

Ancestors of Donna (MOORE) Peckam

they had done in Monroe County.

Spring Place had been established in 1801 as a Moravian mission to the Cherokee and had been a post office since 1810 - the second oldest in North Georgia. Even before the Cherokee "Trail of Tears", (1838) the Americans who had drawn or purchased Murray County land lots of 160 acres in the Georgia Land Lottery were pouring into the area

1836 Creation of Bradley County, Tennessee

Bradley County, Tennessee was created on May 2, 1836, from Cherokee Native lands. Swindled by dishonest legislators and treaty makers, using fraudulent and worthless treaties, the Cherokee peoples were pushed from their homes in eastern Tennessee into northern Georgia. Forced from Georgia also by dishonest legislators, the Cherokee people eventually were confined in concentration camps in Bradley County before their forced march known as "The Trail of Tears".

Bradley County's unique history includes the home of the Cherokee Nation, known as Echota, (see the map on page 7) who's last Eastern Capitol is now known as Red Clay State Historical Park. It is an interpreted site certified by the National Trail of Tears Association and stands as a reminder of the spot where they were notified of their tragic journey ahead.

Actually Donna there are several sets of Carters that came from New Jersey down to North Carolina then to Greene County, Tennessee. As I have said for the last 10 years the only way we will be able to crack Valentine's parentage is by taking a road trip to Bradley County, Tennessee. I wrote a M.A.G.I. course on how to break down your brick wall, I have attached it for you so you can see what you are up against. Floyd

No I thought you wanted proof of us being related to valentine carter. I have no idea where you fit in, I honestly didn't know you did, I just thought you were an interested party. Well good im glad your related some how. Well I have seen that maybe Levi was Valentines Carter born in tennessee dying in missouri and his dad is james carter born virginia dying in tennesse. I will have to talk more to my mother about this, cause I actually know nothing. I am not sure we are related to the same Carters. Are there two sets of Carters I think there is. Forgive me I get confused easily. Thanks Donna

No Donna, I didn't want proof we are related , since I never heard from you before I wanted to know who you were. I know most of the Carter, Harmon and Pratt researchers but you are "new" to me so I just wanted to know something about you. I have been researching for 37 years and Valentine's parentage has really "bugged" me. I know so much about all the other Carters in Tennessee, it frustrates me not to have figured out his parents. I feel that Marcus Carter that married Marena (**CARTER**) is related to Valentine and his brother James who also was a preacher. How much do you know about them so I can figure how much info to send you? Floyd

Lets see here, you want proof that we are related, I am kind of illiterate at this, just what kind of proof. I have birth certificates that I have printed off line and stuff. You are gonna make me work that hard, oh my goodness. Ok I will try to figure it out. Valentine Carter is my mom's grandpa on her dads side, since she is a Carter. My great grandpa. Here is what I have found, accuracy is very questionable. I will start with my mom's dad

Andrew valentine carter Wife Ida W Dierking, this i know for sure 1856-1938 born missour, died missouri

1819 Creation of McMinn and Monroe County, Tennessee

McMinn and Monroe County, Tennessee were both created on 13 November 1819, from Cherokee Native lands. Swindled by dishonest legislators and treaty

makers, using fraudulent and worthless treaties, the Cherokee peoples were pushed from their homes in eastern Tennessee into northern Georgia. During the 18th century, towns and villages of the Overhill Cherokee were scattered along the Little Tennessee River and Tellico River throughout Monroe County. These included Chota (Cherokee Capital), Tanasi (the name source of "Tennessee") and Great Tellico, which at various times were Cherokee principal towns, as well as Citico, Toqua, Tomotley, Mialoquo, Chilhowee, and Tallassee. Monroe County was established in 1819 after the signing of the Calhoun Treaty, in which the Cherokee relinquished claims to lands stretching from the Little Tennessee River south to the Hiwassee River on threat of war. The county was named for President James Monroe. Some of the state's first gold mines were discovered in 1826 located in Monroe County encouraged by the whites, forcing the government to seize land by any means. Placer mining took place on Coker Creek (near Tellico Plains) in the early 1830s.

Research Note

Read the paper, "The Parentage of the Three Reverends...and the Lady" by this author. Mr. Pratt establishes a relationship between Valentine and his brother James Allen Carter with the Allen Sr. and Elizabeth (TRIMM) Carter family. This relationship is based on census, names and associations, void of hard documented evidence. In this report, Rev. Marcus E. Carter is a cousin, son of Allen Sr.'s brother; Caleb Jr. and Phoebe (WILLIAMS) Carter. We know Valentine's brother; Rev. James Allen Carter after leaving Bradley County, Tennessee stayed in Crawford County, Missouri for a while near his brother, and then moved to Texas County, Missouri. Maybe finding a death notice in Jefferson County, Missouri, where James died might reveal his parentage and thereby reveal Valentine's parents giving us hard evidence as to their parentage. A serious family researcher of Valentine's needs to research each and every

Ancestors of Donna (MOORE) Peckam

resource in the Crawford County, Missouri Courthouse and check each and every local newspaper, i.e., Steelville, Sullivan, Bourbon and others to find information concerning Valentine Carter. We checked the Methodist Episcopal Church headquarters, since Rev. Valentine was a circuit preacher for over 30 years, to see if he had filled out an application-listing parents, but they stated his ministry had commenced long before they started to keep records. If some legal document does not reveal his parentage and connect the family to more generations of Carters in Bradley County, Tennessee, then a road trip is necessary to Monroe, Bradley, McMinn and Roane Counties of Tennessee to begin the quest for verifiable hard evidence of his parentage. 1835-1837 Marriage of Valentine S. Carter and Maleta "Letha" (EPPERSON)

I believe Valentine Carter and Maleta (EPPERSON) were married circa 1837-1838 and their son; Allen was their first born. However, I feel the 1840 census has deceived many researchers over the years believing Valentine and Maleta married 1832-1835 because in the 1840 census showing two boys aged 5-9 year old.

Taking in account Valentine was younger than Maleta and was born in 1820, he would not have been married at age 12 to 15 as the boy's age suggests. I believe these two boys were brothers of Valentine's and one of them was...James Allen Carter.

Since no database has revealed the marriage date and location of this marriage then it is evident this would be a big key to solving Valentine's parentage.

Maleta's father; Jesse Epperson was in the 1830 McMinn County, Tennessee census and I checked the other "Carters" in McMinn County but no one appears to be the link to Valentine.

Checking the church records of the Methodist Episcopal Church South, if they exist, in the surrounding counties of McMinn might hold that marriage record.

However, Valentine's parents were living in Monroe County, I suspect Valentine courted Maleta, who probably also lived in Monroe County at the time of the marriage and married her in that dark period between the formation of Monroe County in 1819 and 1838 when they officially started keeping marriage records.

Finding out when Jesse Epperson left McMinn County and when he bought land if he ever did in Monroe County, and when he bought land in Bradley County would give us a snapshot of his movements during that blackout time period.

1935-1939 Family Move

Valentine and Maleta married and moved to Murray County, Georgia. Son, Allen Carter was born in Murray County, Georgia on 24 October 1839.

After Allen's birth, Valentine is back in Bradley County living next door to his father-in-law; Jesse Epperson and family. In 1828, gold was discovered in northwestern Georgia then called Cherokee County.

In December 1832, the Georgia General Assembly designated the extreme northwestern corner of the state of Georgia as Murray County.

Formerly part of Cherokee County, the area was named for a Georgia statesman from Lincoln County, Thomas W. Murray, a former speaker of the Georgia House.

Ancestors of Donna (MOORE) Peckam

The area was in the heart of the Cherokee Nation at the time the boundary lines were drawn through their territory. Not waiting until after the Cherokees were removed in 1838-39, the white settlers entered the county in large numbers as they had done in Monroe County.

Spring Place had been established in 1801 as a Moravian mission to the Cherokee and had been a post office since 1810 - the second oldest in North Georgia. Even before the Cherokee "Trail of Tears", (1838) the Americans who had drawn or purchased Murray County land lots of 160 acres in the Georgia Land Lottery were pouring into the area

1836 Creation of Bradley County, Tennessee

Bradley County, Tennessee was created on May 2, 1836, from Cherokee Native lands. Swindled by dishonest legislators and treaty makers, using fraudulent and worthless treaties, the Cherokee peoples were pushed from their homes in eastern Tennessee into northern Georgia. Forced from Georgia also by dishonest legislators, the Cherokee people eventually were confined in concentration camps in Bradley County before their forced march known as "The Trail of Tears".

Bradley County's unique history includes the home of the Cherokee Nation, known as Echota, (see the map on page 7) who's last Eastern Capitol is now known as Red Clay State Historical Park. It is an interpreted site certified by the National Trail of Tears Association and stands as a reminder of the spot where they were notified of their tragic journey ahead.

Research Note

Since all the Kasbaum children were born in Prussia, then they immigrated to the US between 1858-1860. Since the Kasbaum children are so young would

Ancestors of Donna (MOORE) Peckam

indicate their father died in Prussia or in the US. Also, it looks like Sophia M. (_____) Hanneman may have been the mother of the Kasbaum children or a close relative. She may have remarried to William Hanneman after they moved to the US and after the birth of Anna in 1858. I base this assumption on the 1850 District 31, Franklin County, Missouri census where William Hanneman is married to Mary born 1822 Germany...not the same age as Sophia of the 1860 census born 1828.

1819 Creation of McMinn and Monroe County, Tennessee

McMinn and Monroe County, Tennessee were both created on 13 November 1819, from Cherokee Native lands. Swindled by dishonest legislators and treaty makers, using fraudulent and worthless treaties, the Cherokee peoples were pushed from their homes in eastern Tennessee into northern Georgia. During the 18th century, towns and villages of the Overhill Cherokee were scattered along the Little Tennessee River and Tellico River throughout Monroe County. These included Chota (Cherokee Capital), Tanasi (the name source of "Tennessee") and Great Tellico, which at various times were Cherokee principal towns, as well as Citico, Toqua, Tomotley, Mialoquo, Chilhowee, and Tallassee. Monroe County was established in 1819 after the signing of the Calhoun Treaty, in which the Cherokee relinquished claims to lands stretching from the Little Tennessee River south to the Hiwassee River on threat of war. The county was named for President James Monroe. Some of the state's first gold mines were discovered in 1826 located in Monroe County encouraged by the whites, forcing the government to seize land by any means. Placer mining took place on Coker Creek (near Tellico Plains) in the early 1830s.

2007 Email Posting

Hello, Floyd,

I have been reading your posting on the Trimm-Carter Families, #17877 on GenForum.

I descend from John Carter Sr.'s children, John Jr. and his sister, Rebecca. I have lost John Jr.'s son, Allen, who married Elizabeth Trimm, d/o Henderson Trimm and wife, Martha Baldwin. I have not found Allen after them 1830 Census. Do you know where he settled after that census? Allen was born on 24 Jan 1791 in Greene Co., Tenn. In the 1830 Census he is living near Isaac Carter (his brother), and Carter Trim.

I would like to know your source proving that John Carter Sr. and Levi Carter (brothers proved by DNA) are also brothers of Nathaniel, Joseph, Caleb, and James Carter. Who is this James Carter?

John Carter Sr.'s youngest son was James Carter, born 1 January 1768 in "what is now known as Tennessee" according to his Rev. War Pension Application. He was a drummer in the Fife & Drum Corp of the N.C. Continental Line in 1781, as a young boy. He moved to Fannin County, Texas, when it was still Mexico and received a Republic of Texas land grant. He is only one of 46 Revolutionary Soldiers buried in Texas. He only had one son, Minatree Carter, and several daughters who are named in his Will dated March 1, 1849 in Bonham, Fannin Co., Texas. In 1860 Fannin Co., Texas, Carter Trimm is a Methodist minister in Fannin Co., Texas. In 1830 Monroe Co., Tenn. he was living next to Allen Carter and wife, Elizabeth Trimm. He died about 1870 in Fannin County. His wife was, Polly Barker or Parker, whom he married on 2 Oct 1816, his bondsman was Allen Carter.

Ancestors of Donna (MOORE) Peckam

Someone wrote that Levi Carter Sr. was born in 1836 in Wales and that assumption has been repeated over and over but several researchers, including me, have not found any proof of that whatsoever, so my record on this is "blank" until proved.

The earliest proof of where my John Carter Jr. was living is when he signed up as a volunteer soldier under

Capt. William Haymond in 1777 in Cresaptown, Maryland (he said Pa., but it was Maryland about 16 miles from the Penn. Line.) He said he was living in Cresaptown in 1777. It appears that he was born on 1 Sept 1756 in Brunswick Co., Va., son of John Carter Sr. and his 2nd, wife, Rebecca Stuart, d/o Charles Stuart and wife, Anne Pace. John Carter Sr. was appointed Guardian for Charles and Anne's two minor sons, William and Richard Stuart, and Joseph Carter was the bondsman for John Sr. (Brunswick Co., Va. Orphans Court.)

John Carter Sr. and wife, Rebecca Stuart, were living on her brother, James Stuart's Plantation on Meherrin River, given to him by his mother-in-law, Ann Robinson, widow of John Irby of Brunswick County. Ann married 2nd,Robinson. James Stuart wrote his Will in 1767 and states that John Carter and wife, Rebecca, should take care of the plantation until James' son, Charles, comes of age. Then John and Rebecca Carter disappear from the Brunswick Co., Records. Joseph Carter married Mary Robinson who may have been a daughter ofRobinson and his first wife. Joseph Carter also disappears from the Brunswick County records after his marriage to Mary Robinson. He would be Joseph Carter Jr. Joseph Carter Sr. of Prince George Co., Va. married Elizabeth Peebles, born before 1714 in P.G. Co., dau of Henry Peebles and Ann Nicholson. They lived near Richard Pace and wife, Rebecca Poythress, in P.G. Co. before the Pace Family moved to their Granville grant in North Carolina. Brunswick County was formed from Prince George Co. in 1742. The above Anne Pace who married Charles Stuart was a daughter of Richard Pace and Rebecca Poythress. Charles Stuart left his Will in 1752 and his wife, Anne, died in 1753. There was a James Carter in Prince George Co., Va. who was a Sheriff but I don't know if he is related to John and Joseph Carter of Brunswick Co. There were about 3 different Carter lines in that area at the same time, just as there were in Greene Co., Tenn. in the early records. They may have been related in some way. John Jones, merchant of Surry Co., Va. was the bondsman for John Carter Sr. when he married Rebecca Stuart on 1 January 1754 in Brunswick Co. Joseph Carter was granted the land in Greene County, Tenn. where John Carter Sr. built his station (fort) before 1783. Joseph died about the same time John Carter Sr. died in late 1811. Joseph Jr. was the Adm. of Joseph Sr.'s estate, and Daniel Carter was the Adm. of John Carter Sr.'s estate. I suspect that Joseph and John Sr. were brothers but there is no proof as yet.

Matilda Carter, born 6 Aug 1799, died by 21 August 1867 in Barry Co., Mo., married (1) Robert Cate on 30 Sept 1824 at her brother, Benjamin's home. Robert died in 1843. She married 2nd, Anderson Trim, and was divorced from

Ancestors of Donna (MOORE) Peckam

Anderson by 1850 in Bradley Co., Tenn. She had all her Cate children in her home in the 1850 Census. She was age 46. Anderson Trim married (1) Sydney Carter, (of the Hugh Carter family), on 2 June 1817. She died in McMinn Co., Tenn. He was licensed to marry (2) Matilda (Carter) Cate, widow of Robert, in Rhea Co., Tenn. It is not known for sure if they married and divorced or just never married. He married (3) Elizabeth Ann Thomas of Rhea Co., Tenn., da of Enoch and Hannah Thomas of Philadelphia, Pa.. They moved to Bradley Co., Tenn. where he died in 1875.

Anderson Trim was: a farmer, Methodist Minister, Tavern & Innkeeper, Trustee of The Pond Creek Baptist Church in McMinn County on 12 Dec 1836, Helped organize The Methodist Episcopal Church in Cleveland, Bradley County, Tenn. on 14 August 1865. The Cate and Hardin Families of Greene Co., Tenn. have their roots in Surry Co., Va.

I just noticed something of interest: Henderson Trim Sr. married (1)....., and had, Elijah Trim,(c1785-1823) married in 1806, Davidson Co., Tenn., Mary NICHOLSON. (See above: Henry Peebles m. Ann Nicholson, parents of Elizabeth, wife of Joseph Carter Sr. of Prince George Co., Va.)

Best Wishes,

1812 Will of John Carter Sr. or 1st

Ancestors of Donna (MOORE) Peckam

Greene County, Tennessee Wills , Rebecca , daughter of John Carter from New Jersey to Greene County , married 1st ____ Hardin 2nd ____ Ross ca. 1812. One John Carter married Isabel Haveland 9 May 1737 in Piscatoway(Piscataqua River) , New Jersey. Had Daughter Mary born 9 August 1738 who has descendants in Tennessee.

(I Joe Carter the one posting info on the forum have Checked this part out and did locate some Carters in New Jersey that are related to some in Tennessee but I have not tied them to this John Carter family below, but I am closing in and getting closer.

John Carter , emigrant from New Jersey settled four and a half miles North of Greenville on the waters of Roaring Fork of Lick Creek (It is possible that some of his brothers came with him , as there are a large number of persons in the county with whom impression exists that they are related to the Carter family in Question , but I am unable to trace relationship.)

The said John Carter reared a family of Five sons _ John; Abraham; Daniel; Jacob;and James; and two daughters ;Rebecca and Penelope.

Most of the sons of Mr. Carter reared families , John Carter Jr. had nine sons : Isaac ; Jacob : Allen ; Elam; John; Benjamine; Ezekiel; Mashack; and Enoch.

Capt. Robert C. Carter who is sixty-eight years old and who did service in the war with Mexico , and who had a Captains Commission and was much engaged in the secret service of the United States during the Civil War, is now living on the farm of his great grand father and has in his possession deeds given by his great uncles ,Daniel and James Carter, to his grandfather, who was also named John to their intrest in their fathers estate, dated April - July 1814.

I Have been watching the DNA Test Results at Carter-Cousins.org and we got another match for our John Carter of Carter's Station in Greene County Tennessee and it looks to me, like we are related to the New Jersey Carter line that Barnabus Carter and Samuel Carter were related to, this Samuel Carter was married to Sussannah Pipes and was from Nathaniel Carter. The person that tested did not supply a very good background as to his family but fortunately I have photocopies of Census Records and I have determined that he was from the Milton Carter Line who I believe was a son of Barnabus who was the son of Samuel and this Milton Carter born in North Carolina was married first to Elizabeth Jacks and 2nd to Minerva Tipton of Tennessee Milton had A lot of Children by Both Wives and lived in Jackson County Alabama and Madison County Alabama. The part that confuses me is I had this person Milton listed as Littleton Carter. I would appreciate any help or input from other Carter researchers working on this family. I have some earlier post on this forum of Samuel Carter and wife Pipes and the Jacks family. I can share Photocopies of the Census records with others related to Milton Carter. Joseph Carter

Ancestors of Donna (MOORE) Peckam

Janell , I am glad your Husband took the DNA Test. If we can Link your Milton with Barnabas and Samuel it will certainly aid our research on John Carter of Greene County Tennessee that was once in Surry County North Carolina and possibly solidify our tie to The New Jersey Carter Line of Nicholas Carter Then to Barnabas Then to Nathaniel Carter that was Married to Hannah Price and then to Samuel Carter that was married to Sussanna Pipes. Families of interest to you would Be Cobb, Van Winkle, Shores , Pipes , Southard , Jacks and Sparks. I Will send you copies of The Census Records that show the Rest of Your Husbands Family and verifies the Proof to Milton Carter that was married first to Elizabeth Jacks after her death then to Minerva J. Tipton widow of James Givens and down to your Marion Carter listed in the 1850 , 1860 and 1870 census and some family in 1900 census and some family in Fannin County Texas where Our James Carter son to John Carter Sr. of Greene County Tennessee ended up. The part I am still working on and is where our main focus should be is to determine if Their was a Littleton that supposedly died in 1863 and if he was a brother or cousin to Milton that died in 1878 in New Market , Madison Co Alabama. where some researchers list your Milton as Littleton Milton Carter in the LDS and I suspect this to be an error because in the 1860 Census of Wilkes County North Carolina Littleton age 62 wife Mary whom I suspect to Be Mary Jacks age 62 are listed with a Franklin age 25 and Martha age 28? and a name that is hard to read but possibly Bernam or Bernard age 2 and 1870 Census shows Bernam F. age 35 and wife Martha age 34 with Bramlet? age 12 Cleopatra age 9 Mary age 6 and Ellen age 2. Other Carter's in the Area were Benjamin age 48 , Caleb age 42 , Joshua age 45 , Keziah age 40 , Samuel age 47 , and Sarah age 60 .Your Milton born in North Carolina is already in Alabama in 1850 , 1860 and 1870 Census with Minerva. Other Researchers list Milton and Littleton as son to Barnabas (Barney)Carter son to Samuel Carter and 2nd wife Susannah Pipes.I am trying to obtain the Bible records of Barnabas Carter that list his Children that one researcher claims to have. and I show Samuel , Barney, Benjamin , Ephraim and Abiram listed in Captain Martins District in 1812 Tax List and on the Census of 1810 all but Barney in Surry County North Carolina.Barnabas is shown in the 1810 and 1820 Census of Wilkes County North Carolina which was once Surry.In the 1790 Census of Surry I show a Samuel and John Carter in Surry Co Salisbury dist. in the 1800 Census of Surry I show Berry, Ephraim, Isaac Sr. and Isaac Jr. , John, Joseph , Moring , Samuel and Simeon as Carter's Their.In 1810 it Shows Abyram , Benjamin , Clement , Ephraim , James , John , Joseph , Joshua , Mary , Samuel , Solomon as Carter's their. 1820 Census of Surry shows Abram , Clement , Edward , Ephraim , John , Joseph , Joshua. Note Janell Please post Information that you have on your line that may help in our research.

A Little Something About Your Author.....

Floyd Thomas Pratt, F.H.C., M.A.G.I.

At the age of 19, Tom Pratt embarked on a career in law enforcement. This experience gave him training in detective and investigative skills. Little did Mr. Pratt know, how useful these skills would be in the field of genealogy.

Tom Pratt started his family research career in 1975 after becoming a member of the Church of Jesus Christ of Latter Day Saints. His first calling as a new member was to serve in the newly created genealogical department or known today as the Family History Center in the Springfield, Missouri ward. This two-year calling gave Mr. Pratt a tremendous amount of experience helping others to research their families.

In fact, he felt family research came easy and required little effort on his part. In reality, years of reading and studying increased his expertise and he made it look easy to others.

Over the course of several years, Mr. Pratt was asked by his church to instruct several family history courses. This experience established a deep profound love for family and ancestors.

It was not uncommon for Mr. Pratt to spend 4 to 8 hours a day researching and compiling family histories in addition to his duties, as an entrepreneur in the insurance business.

The first major achievement for Mr. Pratt was a breakthrough on his Pratt family back to the early 1800's. Not satisfied with just the direct line research, Mr. Pratt branched out to research all connected lines and allied families.

This dedication led to 42,000 individuals and achieved expert status for Mr. Pratt on the families of middle and eastern Missouri, eastern and western Tennessee and central North Carolina.

Concerning Mr. Pratt's style of research, he is a strong supporter of the "hands on" approach. When he took family vacations, they usually went to libraries, cemeteries, courthouses, National Archive centers, and visited family members in various states. He attended multi-state family reunions and obtained his material from the actual sources when possible.

A Little Something About Your Author.....

Being a researcher of the highest degree, in 1991, Mr. Pratt formed the Pratt Publications Company and offered to the public, a series of books titled, The Pratt Progenitor Papers. This series of volumes are a collection of legal documents, stories, pictures and historical presentations concerning the families of Missouri, Tennessee and North Carolina.

The first three Volumes were released to the public in 1991 and were issued to 18 different libraries including the Library of Congress and the St. Louis Public Library. The next 7 volumes were published with a total of 43 volumes scheduled for publication.

In 1996, Mr. Pratt formed the Genealogical Institute to further the education of serious researchers.

The Genealogical Institute offers a series of educational materials to teach and instruct the uninitiated in the procedures of family history research. These courses offer "a hands on" curriculum designed to instruct in investigative, deductive reasoning and logical procedures for tracking your family history.

Beginners and experienced researchers have found a treasure chest of knowledge when undertaking these courses. Mr. Pratt has taken the hobby of genealogy and has enhanced it into a science. Heavy on instructions concerning documentation, research procedures, alternative sources and common public records, this course is a valuable tool for the researcher. One of Mr. Pratt's favorite sections of the course is teaching researchers "how to stop" researching and compile their information for publication.

Upon completion of the educational courses from the Genealogical Institute, the graduate is awarded the **Master Accreditation of the Genealogical Institute. (M.A.G.I.)**

This designation is equivalent to a Doctorate Degree and signifies the recipient has been trained and demonstrated superior research techniques.

Mr. Pratt's ability in family history research has amazed many educated researchers. When Mr. Pratt is asked for help concerning their "brick wall" in their family research, his quick wit and logical mind rapid fires instructions and procedures so fast they cannot write the material quickly enough. Little do they realize this knowledge has been acquired over 30 years of experience and research.

In June of 2000, Mr. Pratt undertook a new and unprecedented task.

Outside of Washington, Franklin County, Missouri is an old cemetery called the Johnson-Caldwell Cemetery. This cemetery has many pioneer heroes and ancestors of various descendants from that region. Some of the inhabitants were born in the 1750's and traveled west to Missouri after the 1803 Louisiana Purchase.

A Little Something About Your Author.....

Mr. Pratt took down all the information off the headstones, including every person in the cemetery and researched each individual related or not. 1000 man-hours and two years later, he published the book "Johnson-Caldwell Cemetery of Franklin County, Missouri"© 2001.

Obtaining newspapers, legal documents, personal interviews with ancestors and researching various sources for any and all information concerning the history of the cemetery and the inhabitants produced this master text. What makes this book stand out among the rest is basic content and structure.

First, it is the only book to cover the known and reported inhabitants of an entire cemetery.

Second, this book reports on each inhabitant, their birth and activities throughout their life until their death, including their ancestors, spouses and children.

Third, even the index is unique, listing the individual and their father's name if known. This is extremely helpful when several individuals have the same given name.

Upon examination, professional researchers have hailed this body of work as a masterpiece and a standard in which all future research of cemeteries should be based. In their opinion, no one has ever produced a body of work about a cemetery as unique and professional as this publication.

Currently, Mr. Pratt is working on a series of books from the [Pratt Archive Collections](#), which is a series of biographical publications concerning a progenitor and a generation of descendants. This collection is a "cradle to grave" report, which covers the subject's ancestry, birth, marriage, children, and geographical domiciles as well as the political environment during the subject's lifetime.

In addition, Mr. Pratt is working on additional volumes of the [Pratt Progenitor Papers](#) and several books on public records.

With all these accomplishments, Mr. Pratt humbly refers to himself as a Genealogical Anthropologist...resurrecting progenitors.

We in the genealogical world are deeply grateful to be associates of a man of Mr. Pratt's caliber. Through his dedication to helping the novice as well as the professional researcher, future generations will benefit by his advances in the genealogical field.

In addition, we are thankful for the inspiration that sparks men like Mr. Pratt to magnify their love for people and history. We feel, with a lifetime dedicated to the genealogical pursuit of truth and knowledge, Mr. Pratt's accumulative body of work, will stand as a quintessential manifestation of this divine love.

1. Do not give copies or reproduce the information you received from the compiler or author without written permission.
2. In your research efforts if you are able to advance the research, then reciprocate by sharing your research information with the compiler.
3. Use the information you receive as a starting point for your research of your families.
4. If you decide to use information you have received, in a book, document or research material, be sure to acknowledge the author or compiler of that material.
5. All inquiries by third parties for a copy of the material should be forwarded to the original compiler or author.
6. Do not loan or share your information, family heirlooms, special documents, one of a kind, pictures, or irreplaceable materials to non-professional researchers or family members. These types of materials seem to disappear or become damaged.
7. Make copies of important documents or materials when at libraries and be sure to write the name of the book, source, letter or film with the author's name and page number and year of publication.
8. Genealogy work that is not documented is of little value. Remember, you are leaving a trail for those who follow. If future researchers have to verify your work, then of what value is your work?
9. Collect family stories from those relatives who are still alive. This is a short cut to your past and they hold a world of knowledge about your family.
10. Do not try to finance all your research alone. Ask for financial assistance from interested family members.

Remember, the family history information that is so easily exchanged today by computer was acquired over years and years of on-site research. While many were engaged in raising families, working for income, and surviving, genealogist researchers did these things **AND** spent their free time in pursuit of the truth about their ancestors. This pursuit required great sacrifice of time, effort and money. Many researchers went to the actual locations to view the marriage, deed, death and birth records including visiting the cemeteries across the United States and foreign countries. This is why it is important to follow the above guidelines; by doing so, you give respect to their work and honor to their memory. Thank You.

“The Carters of Greene County, Tennessee
an Early American Frontier Family”
By Dr. John Denton Carter 1981

This rare and out-of-print book is now available on cd or as an email.

Dr. John Denton Carter after years of study and research presents a history of John Carter Sr. with brothers; one such individual Levi Carter Sr. in a detailed account of their sojourn from New Jersey through the Pennsylvania and Virginia wilderness of the 1770's.

Settling in Surry County, North Carolina, participating in the Revolutionary War and instrumental in the victory of King's Mountain, which led to the surrender of Cornwallis and the defeat of the British.

Eventually settling in Washington County, North Carolina 1780-1781, later to become Greene County, Tennessee. The Carters began to homestead prime Native lands.

Dr. Carter, using literary license coupled with documented facts gives a good account of explaining the Carter advancements on the Native frontier.

Dr. John Denton Carter, obviously with a love of family history, wrote several other books on the subject, "The Munsey ancestors of Rhoda Munsey Weems Carter (1814-1899), of Russell County, Virginia, and Newton County, Missouri" in 1969 and "Rhoda Munsey Weems Carter a pioneer Methodist mother of the upper south" in 1977.

This publication; "**The Carters of Greene County, Tennessee an American Frontier Family**" contains all the original 53 pages from the book, followed by a summation by Floyd Thomas Pratt.

Contains documented evidence of each locale the Carters lived and Dr. Carter injects local history concerning some key players of the American frontier.

Good reading offering a glimpse into the pioneer mentality of the white American 18th century expansionism.

Surnames contained: Allen, Cain, Campbell, Carter, Cleveland, Core, Cornwallis, Crockett, Dunmore, Ferguson, Fiske, Franklin, Gates, Goodwin, Granville, Greene, Hardin, Hartley, Haymond, Houston, Isaacs, Jackson, de Kalb, Marion, Martin, McGown, McDowell, Morgan, Owens, Powell, Rogers, Ross, Rutherford, Sevier, Shelby, Templeton, Tipton, Trimble, Washington, Walker, Williams, Winston.
